

For Health Visits that are not medical emergencies, please call the nurse before sending a student whenever possible. Also, the nurse may be able to do a classroom visit for non-sick students. Please make sure the student is wearing their mask when they come to the office.

Student presents with any of the following Symptoms:

- Fever
- Chills
- Sore Throat
- Diarrhea
- Nausea and/or Vomiting
- Headache
- Myalgia
- Fatigue
- Congestion or runny nose
- Cough
- Shortness of Breath
- Difficulty Breathing
- Loss or Change of taste of smell

Student presents to the office with:  
Injury  
Chronic Medical Care  
Daily Medications  
Other non-illness complaints

Care will take place in the Nurse's office at the First Aid Station

Student will be taken to the "sick room" for further assessment

If symptoms require student be sent home, a monitoring sheet will be filled out and parents called. Parents will be given recommendations and receive "Return to School" guidelines

symptoms are not consistent with needing to be sent home

Student will return to class after care and thorough handwashing.

**These are general guidelines for Nurse Office procedures this year. Each visit from a student or staff member will be attended to on an individual basis.**
